

# NO DISCHARGE CERTIFICATION

|  |        |
|--|--------|
| KPDES NO.  | COUNTY |
| FACILITY NAME  |        |
| Associated DSMRE No.(s) or Oil & Gas Registration No.(s) if applicable |        |
|  |        |

On the back of this sheet is a list of wastewater sources often overlooked as requiring a Kentucky Pollutant Discharge Elimination System (KPDES) permit. Please review this list to determine if a KPDES permit is required. If a KPDES permit is no longer required because the facility no longer discharges to waters of the Commonwealth or is approved for an alternate means of wastewater disposal, complete the information requested below.

Date facility ceased discharge (approximate)

Current means of wastewater treatment and disposal (e.g., discharge to another wastewater collection system, land application with no point source discharge, etc.)

If discharge is to another wastewater collection system, indicate the name of the system.

For the following means of inactivation attach a copy of the requested document.

- Surface mining operations - a copy of the final bond release
- Oil and gas operations - a copy of the UIC permit, TOS approval, etc.
- Septic tank and holding tank installations - approval from the local health department

*I certify that I am familiar with the operation of this facility and to the best of my knowledge this facility no longer discharges pollutants to waters of the Commonwealth, will not discharge process wastewater in the future, and the information provided is true, complete, and accurate. This certification must be signed as follows:*

1. For a corporation, by a principal executive officer of at least the level of vice president.
2. For partnership or sole proprietorship, by a general partner or the proprietor.
3. For a municipality, by either a principal executive officer or ranking elected official.

Upon receipt and verification of this certification, your KPDES permit will be inactivated.

**Wastewater Sources Often Overlooked - These sources must have a KPDES permit to discharge into waters of the Commonwealth.**

- (1) A spillway from a storage pond or lagoon**
- (2) A bottom drain from a storage pond, lagoon or tank**
- (3) An overflow pipe from a storage pond, lagoon or tank**
- (4) Any drainage pipe from any vessel, tank, or pipe in a supposedly closed circuit water recycle system (this could include blowdown of condensate or water from a boiler, a cooling tower, or any air conditioning system)**
- (5) A pipe draining a diked area surrounding fuel oil or various chemical tanks**
- (6) A pipe or ditch carrying washdown water from either a process area or a truck (or other vehicle or equipment) washing station**
- (7) Runoff from land spraying applications if collected and discharged through a pipe or ditch**
- (8) Overflow pipes from septic systems or runoff from a septic tank drainage area if collected and discharged through a pipe or ditch**
- (9) Discharges from a package sewage treatment plant**
- (10) Discharge of process wastes (or other industrial type wastes) or sanitary wastes to a municipal storm sewer system (discharges to a municipal sanitary sewer system do not require a permit)**
- (11) Transfer of wastewater or cooling water to another facility that has a point source discharge**
